Name Co-founding and Vice-Chairing the Spark Unity Ethnicities Employee Resource Group	Volunteering	1 Nov 2023	10 Sep 2026		40.00

Description Since November 2023, I have been actively involved in promoting diversity, equity and inclusion within the organisation (NIE Networks), helping to establish the Spark Unity Ethnicities Employee Resource Group (ERG). As Vice Chair, I supported the development and delivery of the group's objectives, organised engagement activities, collaborated with colleagues and senior stakeholders, and advocated for an inclusive workplace culture. Through this role, I developed leadership, communication, influencing, stakeholder management and team-working skills while contributing to positive organisational change. I stepped down from the Vice Chair position in September 2026 but continue to support the ERG and its initiatives.

Name Future of Security of Supply Workshop	Work experience	10 Dec 2025	10 Dec 2025		2.00

Description I have been invited to attend Workshop on the The Future of Security of Supply for Electricity Distribution

Context and objectives:
The Future of Security of Supply for Electricity Distribution Initial Research is an innovation project (NGED_NIA_084) to review current electricity security of supply standards and regulations in light of the UKs evolving energy landscape:

Increasing electricity demand and reliance on electricity from decarbonisation of heat, transport and industry; and
The growth of flexibility services and smart grid technologies.

Given this context, the workshop will bring together key industry stakeholders to:

Share the preliminary findings and analysis of the project.
Explore potential gaps in existing standards and regulations.
Discuss emerging needs and opportunities for innovation in system security and resilience.
Engage in breakout sessions to co-develop recommendations for future work and collaboration.

Why your participation matters

Your expertise and insight into UK security of supply technical standards and regulations are highly valued. This is an excellent opportunity to shape the direction of this foundational research and to influence follow-up work.

Agenda

1. Opening address from Cathy McClay, Managing Director of National Grid DSO.
2. Introductions.
3. Presentation of project scope, methodology and early findings.
4. Break-out groups: What does electricity security of supply look like in the future?.
5. Feedback: shaping next steps with stakeholder input.
6. Closing remarks.
7. Networking and lunch.

Udemy Course by Joseph Phillips: https://www.udemy.com/course/pmp-pmbok6-35-pdus/

Earn 35 PDUs/Contact Hours by completing the entire course
You will get all the resources you need to pass the PMI PMP certification exam.
You will earn 35 exam contact hours as required by PMI
You will be able to discuss the PMBOK Guide with confidence.
Explain the project management processes
Discuss the project management knowledge areas
Demonstrate the formulas, charts, and theories of project management
Calculate float for complex project network diagrams
Memorize the formulas for earned value management
Compare and contrast processes, knowledge areas, theories, and project management best practices
Build a strong foundation in Agile project management for the new PMP exam
Complete hands-on assignments and exercises

Reflection Completing this PMP Exam Prep Seminar has been an enriching experience that strengthened my understanding of project management principles and best practices. The course provided comprehensive coverage of the PMBOK Guide, Agile methodologies, and essential formulas for earned value management. This is the baseline now for me to self-study and prepare for the PMP certification.

Name Public Consultation for Moyle Interconnector Capacity Increase Project	Work experience	16 Oct 2024	16 Oct 2024		3.00

Description Attended the Public Consultation for Moyle Interconnector Capacity Increase Project as the project manager from NIE Networks' side.

SONI (System Operator for Northern Ireland), has launched its public consultation for the Moyle Interconnector Capacity Increase Project.

The Moyle Interconnector connects the electricity systems between the island of Ireland and Great Britain. It runs between Auchencrosh in Ayrshire and Ballycronan More in County Antrim. Over the coming years, the grid will need to carry more power to meet demand. There is a clear need to increase the interconnector's capacity and improve its efficiency. To achieve this, our preferred option is to connect Ballycronan More Converter Station directly to Ballylumford Power Station. We propose to do this using two underground circuits.

To provide local communities and businesses with the opportunity to speak with members of the project team and provide feedback on the project, a public drop-in session took place on Wednesday 16th October 2024 from 2 - 8pm at Larne Golf Club, 54 Ferris Bay Rd, Islandmagee, Larne BT40 3RT

Name Public Consultation for Tamnamore-Drumnakelly Upgrade Project	Work experience	26 Sep 2024	26 Sep 2024		2.00

Description Attended the Public Consultation for Tamnamore-Drumnakelly Upgrade Project as the project manager from NIE Networks' side.

SONI (System Operator for Northern Ireland), has launched its public consultation for the Tamnamore-Drumnakelly Project.

The Tamnamore Drumnakelly Project will upgrade the existing circuit between Tamnamore and Drumnakelly substations, increasing the capacity and efficiency of the grid in the local area. At present the grid is congested which means all of the electricity generated is not able to be transferred to where it is needed. This project will allow to use more of the renewable energy which is available supporting the delivery of Northern Irelands climate change targets.

To provide local communities and businesses with the opportunity to speak with members of the project team and provide feedback on the project, a public drop-in session took place on Thursday 26th September 2024, 2pm - 8pm at the Junction, 12 Beechvalley Way, Dungannon, BT70 1BS.

Name Staff Network Leaders Connect, Learn & Share - Session 3	Event/Seminar	23 Sep 2024	23 Sep 2024		2.00

Description After our successful first and second round table session in 2023, due to popular demand, we are hosting a third session on 23 September hosted by NIE Networks at our Danesfort Office, 120 Malone Road Belfast BT9 5HT

We hope you can attend this session which will allow you to continue to build and develop connections with staff network leaders from other companies; learn from tried and tested approaches and share your experiences so that you leave the session full of ideas and practical tools for use in your Staff Network.

In a diverse and inclusive company, everyone should feel that they belong and can thrive that includes those resistant to IDE efforts. How do Staff Network groups create a space for everyone to be authentically themselves? In this collaborative session you will share your experiences, building a toolkit that enables you to run events leading to meaningful conversations, where the awkward questions are allowed, where the dissenting voice can be heard. Having courageous conversations engages and empowers people to face IDE friction - No one wins when frozen by fear.

Name Unconscious Bias in the Northern Ireland Workplace	Training	26 May 2023	26 May 2023		1.00

Description Within NIE Networks we are striving to have a much more diverse and inclusive workplace for everyone. There are great benefits to having a diverse and inclusive workforce both in attracting and retaining employees. Diverse talent brings together a broader range of skills among employees as well as a diversity of experience and perspectives which increases the potential for a happier work place and increased productivity. This also supports more creative innovative thinking and problem solving and creates a diverse culture we all can feel part of. As part of our approach to D&I it is important that all employees are aware of all the different types of unconscious bias that exist and how this can impact the workplace and the organisation. We are asking all employees to complete this short awareness training. Dealing with these biases starts with making the unconscious, conscious.

Course Objectives
By the end of this course you will understand:

What unconscious bias is
The different types of unconscious bias
The impact unconscious bias can have in the workplace
How to reduce unconscious bias in the workplace

Name Egyptian Engineering Day 2016 - Chairman	Volunteering	1 Jan 2016	31 Dec 2016		80.00

Description EED "Egyptian Engineering Day organized by IEEE Egypt section and IEEE Egypt Young Professionals.

Acted as Chairman of Egyptian Engineering Day 2016, one of Egypt's largest engineering events. Led the planning, coordination and delivery of the event over a nine-month period from January to September 2016. Managed and coordinated 260 volunteers, 40 speakers, 52 judges, and 660 exhibitors representing 34 universities, culminating in a two-day event attended by over 6,000 visitors. Responsibilities included strategic planning, stakeholder engagement, team leadership, risk management, event coordination and decision-making. Through this role, I developed and enhanced leadership, communication, project management and organisational skills while contributing to the promotion of engineering education and professional development.

The event took place on 5-6 September 2016
Planning started around 1 January 2016
Officially post-event activities were completed around December 2016
